OCTOBER 2019 INVESTMENT UPDATE

OVERVIEW

The Fund's investment objective is to provide investors with a total annualised return of between 7 – 8% p.a. paid through a monthly income stream derived from a diversified pool of loans. The underlying portfolio of loans is primarily secured by registered first ranking mortgages held over Australian property financing real estate development, construction and ownership across the east coast of Australia. The Fund does not lend directly to the real estate companies, but through Special Purpose Vehicles (SPVs) and funds established by Alceon, a leading Australian non-bank corporate lender and investment firm.

Most of the portfolio represents senior debt (98%) with a monthly coupon (92%). The underlying portfolio is conservatively positioned with the weighted average LVR at 51%.
